

Cigna Expands COVID-19 Coverage

Cigna waiving customer cost-sharing and co-payments for COVID-19 treatment

As the COVID-19 pandemic continues to make a deeper impact across the United States, Cigna is taking another step forward to deliver access to simple, affordable and predictable health care.

Effective immediately, Cigna will waive customer cost-sharing and co-payments for COVID-19-related treatment through May 31, 2020.

Combined with waiving the customer cost-share of the COVID-19 office visit, telehealth screenings, and testing previously announced, Cigna has made it easier for customers to seek medical care when they need it.

Cigna also announced additional support and resources:

- Deploying hundreds of Cigna clinical staff to join the team at MDLIVE, a leading telehealth company and Cigna network partner, to help deliver much-needed virtual care to patients
- Launching a free, early intervention self-assessment tool with Buoy Health to help guide Cigna customers to the next best actions
